

## **WE WANT TO REACH THE LOST!**

Join Like Elijah Ministry for **Celebrando Navidad** to be held December 27-29, 2012. The bridge to Rio Bravo, Mexico will allow us a quick hop and skip to our ministry area! Think of this bridge as the *BRIDGE TO JESUS CHRIST*.

Visits are underway with several new pastors of the Rio Bravo area who are eager to see their communities come to know the Lord as their Savior. They saw your love willingness to work with them are anxious for next year! With your help we will spend two days going door to door sharing the gospel, hosting services and preparing the field for the big day! Together, hand in hand we will continue the work began in 2010 to Celebrate Christmas (Celebrando Navidad) with our brothers and sisters on the 29th!

This will also be an opportunity to bless the children with gift bags that will be put around their neck as they go through the food line. Consider putting bags together as a church, 4-H, school, or community project.

We will also be looking for items to be raffled off during the day.

Folding Chairs	Bicycle Tires	Stainless Steel Pots
\$\$ for Rice	\$\$ for Beans	Socket Sets
Extension Cords	Curtains	Fabric/Thread
Metal Cooking Utensils	Diapers	Space Heater
Blankets	Bicycles	Tarps
\$1600.00 to build house	Donated Car	Baby Stroller
Sewing Machines	Gift Basket	Man Tools
(include needles/bobbins/ <b>NO</b> <b>SERGER THREAD</b> )	(hygiene products)	Flashlights

We so appreciate everything you provide but we've found we do have limitations such as...no storage space...or...some things we just can't get across the border. While items may be valuable in the states it's possible they're not in Mexico. Loose toys, fabric scraps, glass dishes, etc. 'Like New' and 'New' – generally we can get that across. Call to ask!

### **LOOKING FOR SOMETHING TO DO? Outside of the obvious – you can**

Pray! Pray for the Lost! Pray for finances to put this on! Pray for preachers and music for the day! Pray for Christmas Bags for the children! Pray for missionaries (you) to help put this on!
